## Product Information

Your all in one microchip and pet registration solution. We supply microchips with lifetime registration to the Australasian Animal Registry.

No need to set up an account or pay any additional registration fees, everything is included in the one low price!

This product is similar to products you may be currently using such as Chip & Life (Basic), Re-unite and Backhome.

### Each pack contains:

- 10 x ISO FDX-B Microchips
- 10 x Pre-paid Registration Forms with AAR
- Everything you need to implant and meet your registration requirements

### How it works:

- Complete 1 form for every implant
- Mail forms directly to AAR
- No more to pay, registration is included in the price
- No need to have an account with AAR
- Fast, simple and great value!
